

Whistle Blower Policy (Vigil Mechanism)

Amani Trading and Exports Limited

1. Preface:

Section 177 of the Companies Act, 2013 requires every listed company and other prescribed classes of companies to establish a vigil mechanism for the directors and employees to report genuine concerns and grievances in such manner as may be prescribed. Such a vigil mechanism shall provide for adequate safeguards against victimization of directors and employees who avail of such mechanism and also make provisions for direct access to the Chairman of Audit Committee in appropriate or exceptional cases.

Under these circumstances, Amani Trading and Exports Limited (“the Company”), being a Listed Company proposes to establish a Whistle Blower Policy/ Vigil Mechanism and to formulate a policy for the same.

2 Purpose:

The Whistle Blower Policy provides a framework and avenue for all directors, employees, business associates and all other stakeholders of the Company, who have concerns about suspected misconduct to come forward and express these concerns without fear of punishment or unfair treatment. A Vigil (Whistle Blower) mechanism provides a channel to all the directors, employees, business associates and all other stakeholders to report to the management concerns about unethical behavior, actual or suspected fraud or violation of legal or regulatory requirements etc. for reporting instances of unethical/improper conduct in good faith of the company and commitment in adhering to the standards of ethical, moral and fair business practices.

The Company is committed to conduct its business in fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behaviour and by developing a culture where it is safe for all its stakeholders to report concerns about any unethical/improper practices and events of misconduct. The policy neither releases employees from their duty of confidentiality in the course of their work, nor is it a route for taking up a grievance about a personal situation.
